NEXUS FINANCIAL

Incident Response Communication Plan

Version: 1.6 | Classification: Internal Confidential
Prepared by: Linda Osei, SOC Manager
Approved by: Margaret Ellis, Chief Information Officer
Date: March 2026 | Review Date: March 2027

1. Purpose

This communication plan defines the escalation procedures, contact responsibilities, and notification requirements for Nexus Financial's Cyber Security Incident Response Team (CSIRT) during an active security incident.

2. CSIRT Contact List

The following five individuals make up the Nexus Financial CSIRT. All members must be contactable within 30 minutes during business hours and within 2 hours outside of business hours.

Name	Role	Email	Phone
Linda Osei	SOC Manager / CSIRT Lead	[REDACTED]	[REDACTED]
Marcus Webb	Security Analyst	[REDACTED]	[REDACTED]
David Soto	IT Administrator	[REDACTED]	[REDACTED]
Margaret Ellis	Chief Information Officer	[REDACTED]	[REDACTED]
Rachel Thompson	Legal Counsel	[REDACTED]	[REDACTED]

3. Escalation Procedure

When a security incident is suspected or confirmed:

1. The Security Analyst receives and triages alerts from the SIEM platform. If an alert is confirmed as a genuine threat, it is escalated to the CSIRT Lead immediately.

2. The CSIRT Lead declares the incident and notifies all CSIRT members via the emergency distribution list.

3. The CSIRT Lead assigns roles and responsibilities to each CSIRT member for the duration of the incident.

4. The CIO is notified immediately for any incident classified as High or Critical.

5. Legal Counsel is notified if the incident involves a potential data breach, regulatory implications, or threat of litigation.

4. External Notification

External notifications must only be issued with written approval from the CIO.

Party	Condition	Lead
UK Information Commissioner's Office (ICO)	Personal data breach affecting individuals' rights and freedoms	Legal Counsel
Financial Conduct Authority (FCA)	Incident materially impacting regulated activities	CIO
Action Fraud / NCSC	Suspected criminal activity or nation-state attack	CSIRT Lead
Affected Clients	Confirmed breach of client data	CIO with Legal
Cyber Insurance Provider	Any incident likely to result in a claim	CIO

5. Communication Channels

During an active incident, all CSIRT communications must use the dedicated incident response channel. Standard email should be avoided if the email system is suspected to be compromised.

Primary channel: security@nexusfinancial.com distribution list

Backup channel: Direct mobile contact using numbers listed in Section 2

Incident tracking: All actions and decisions must be logged in the ticketing system
